Compliance Module

AI-Powered Regulatory Compliance Analysis

Executive Demo | April 2026 | Confidential

The Challenge

100+

pages per regulation document

8+

frameworks to cross-reference

Days

of manual compliance review

High

risk of missed requirements

Compliance officers spend days cross-referencing dense regulatory text against internal policies. Findings are inconsistent, risk ratings are subjective, and audit trails are fragmented.

The Solution

1 → **2** → **3** → **4**

Upload
Drop your policy document

Select
Choose regulations to check

Analyze
AI scans every requirement

Review
Actionable findings & chat

< 30 seconds from upload to actionable compliance findings

Replaces days of manual regulation cross-referencing with AI-driven analysis

8 Regulations Across 4 Jurisdictions

??? Indonesia

- POJK 6/2022 — IT Risk
- POJK 11/2022 — Digital Banking
- PBI 23/2021 — Payment System

??? United States

- NIST CSF 2.0 — Cybersecurity
- HIPAA — Health Privacy
- SOX — Financial Controls

? International

- ISO 27001:2022 — Info Security

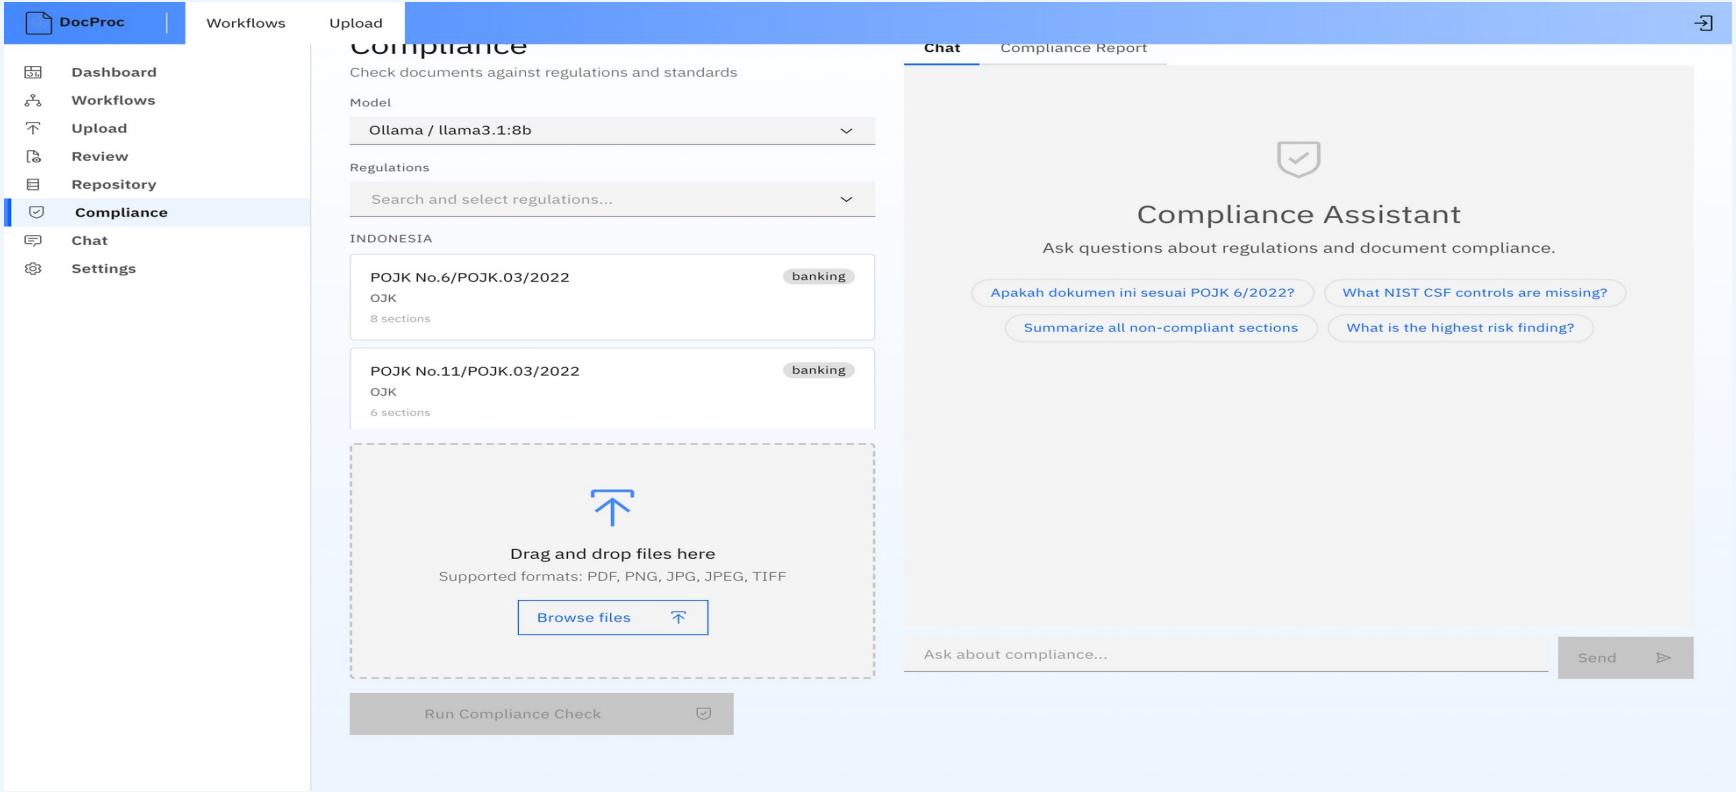
??? European Union

- GDPR — Data Protection

Extensible: add new regulations by dropping a JSON configuration file

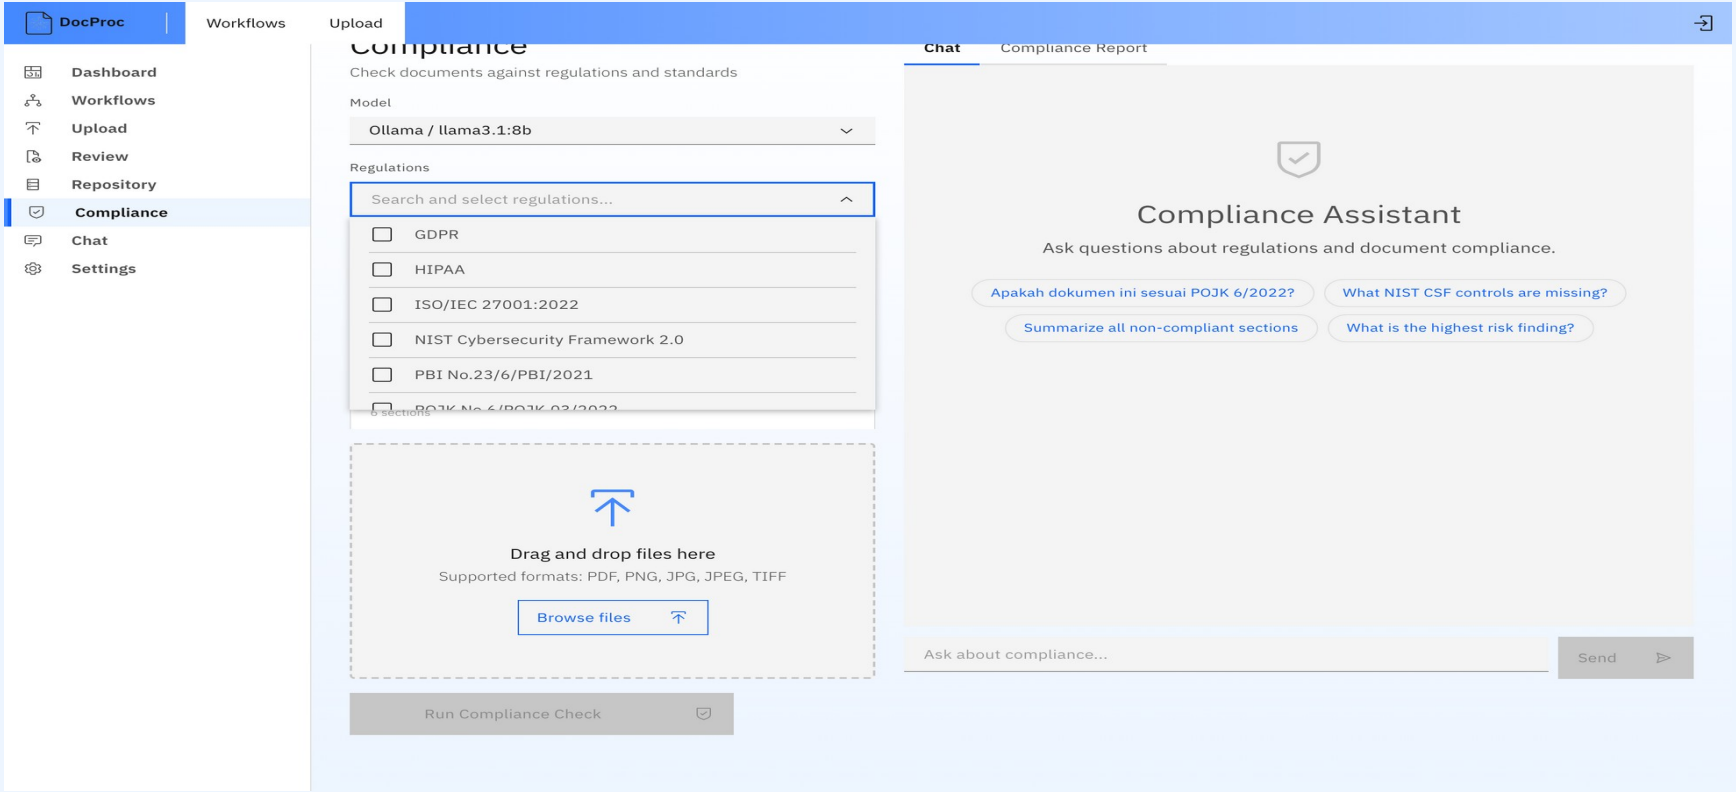
Compliance Module Interface

Two-panel layout: Configure (left) → Results (right)



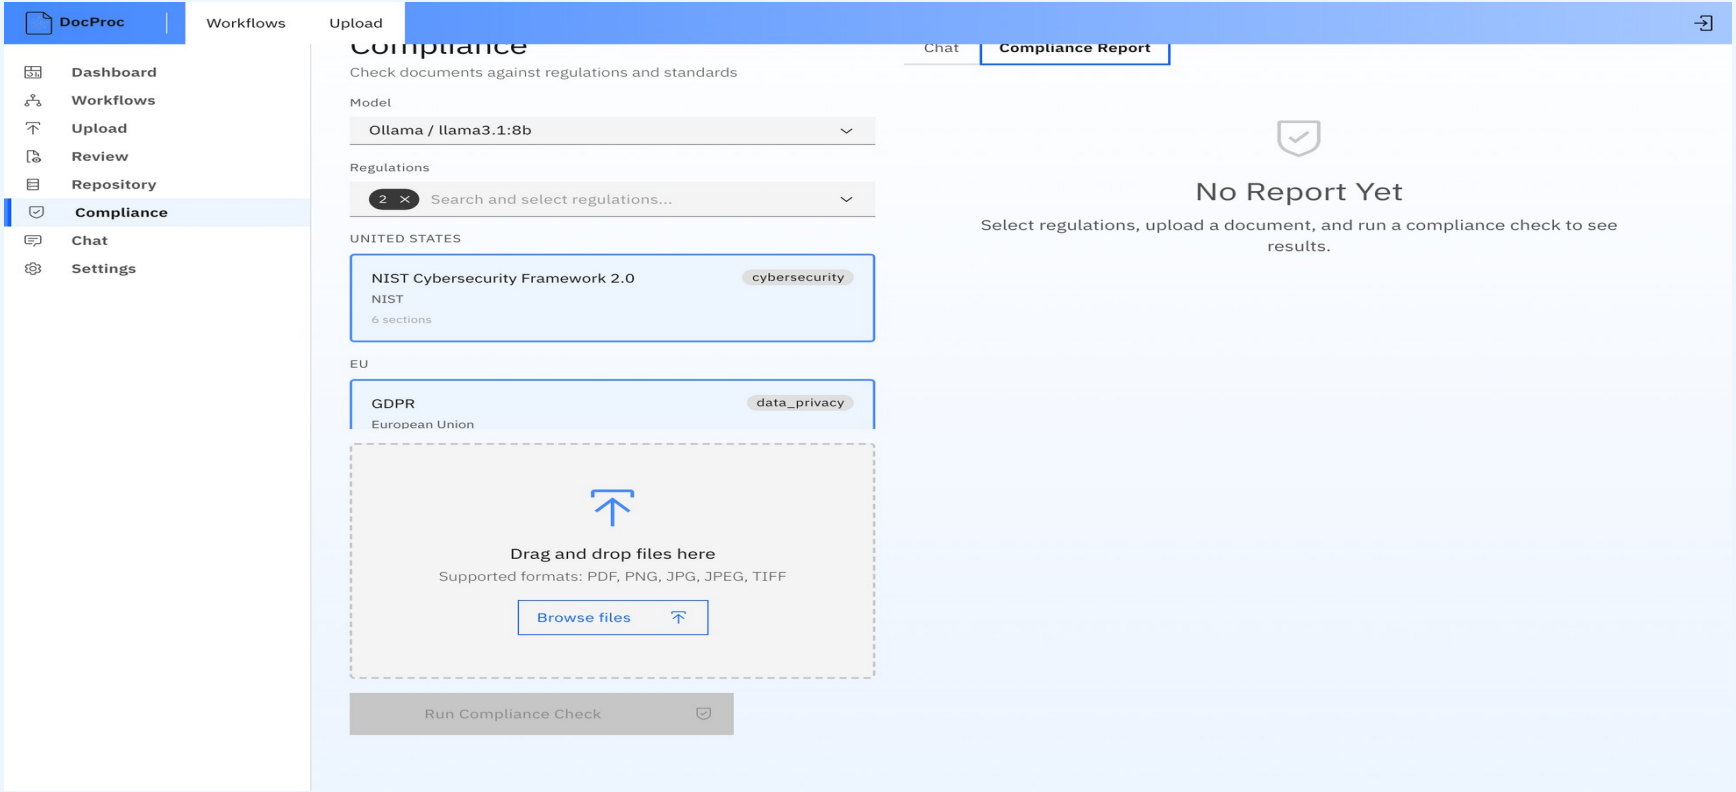
Browse & Select Regulations

Multi-select regulations for cross-framework analysis



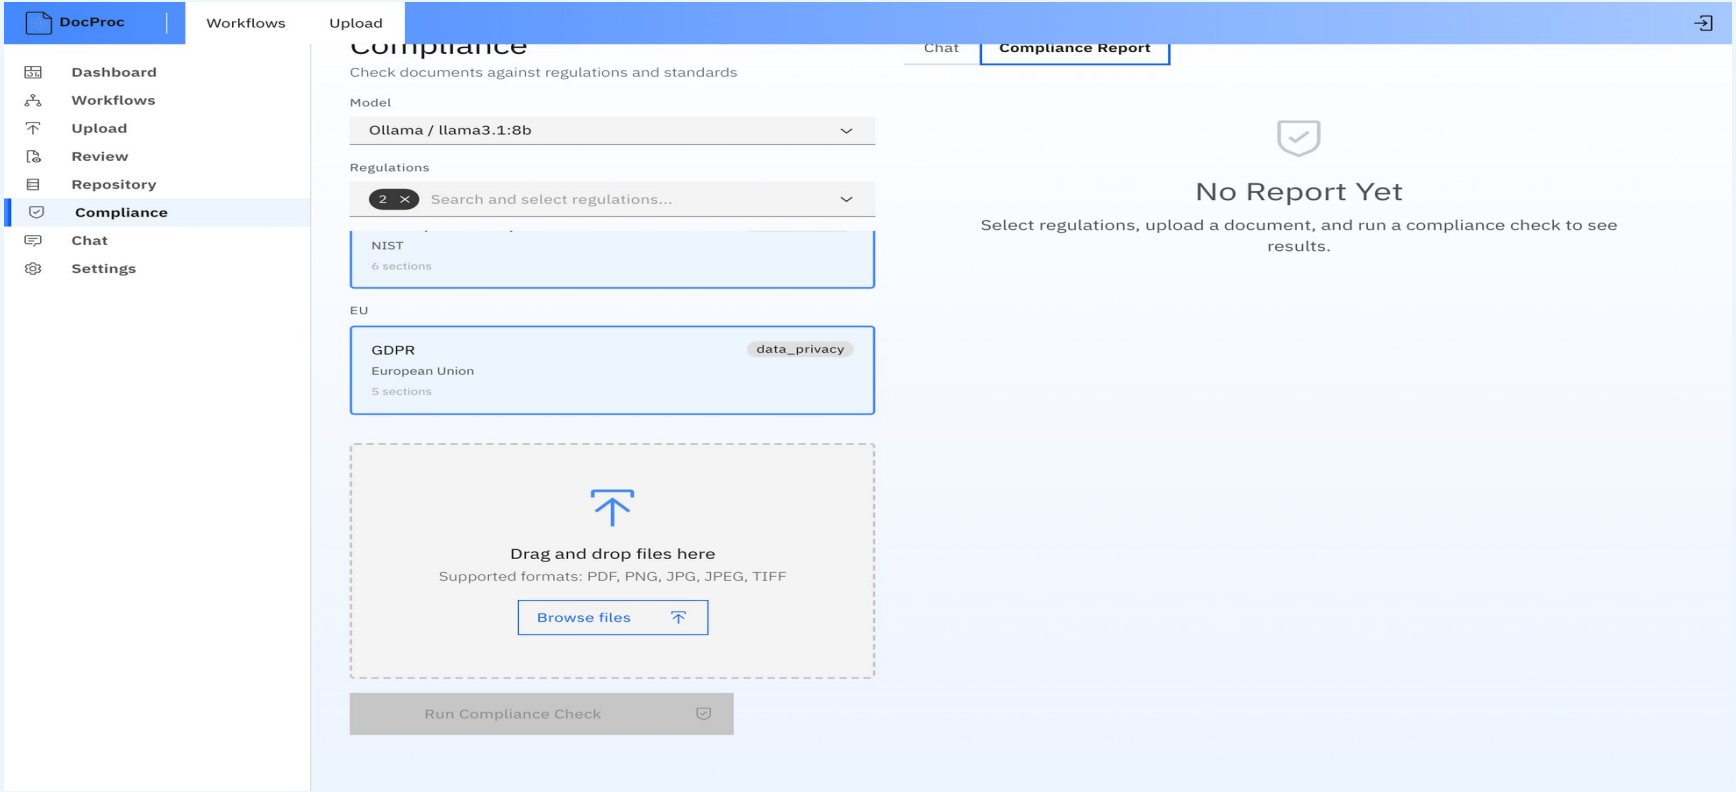
AI-Generated Compliance Report

Overall score, summary, and per-section findings with risk levels



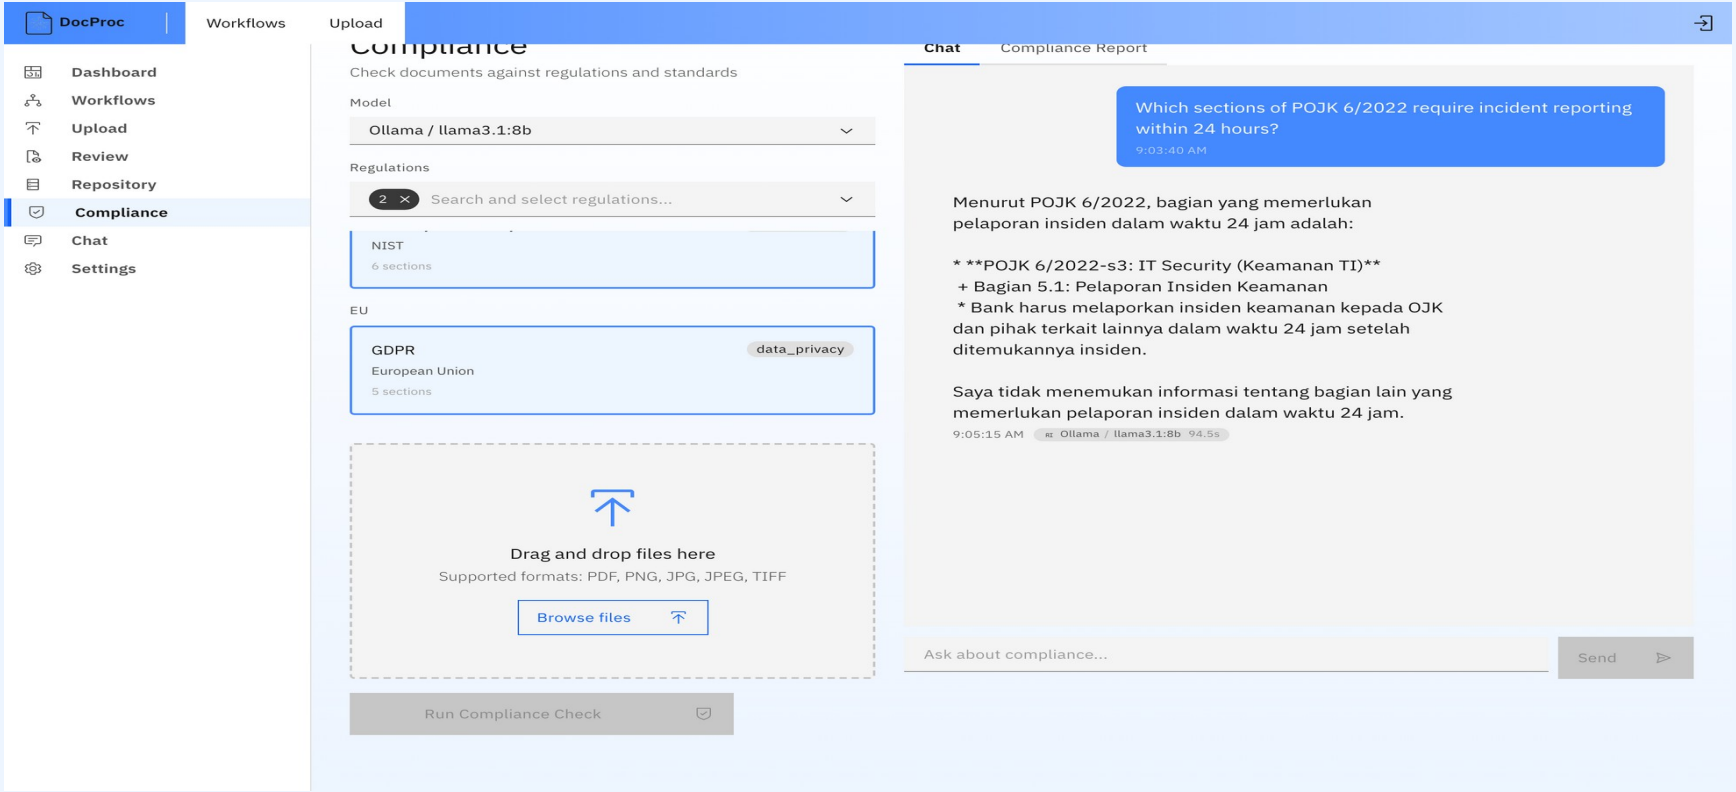
Actionable Findings

Per-section status, specific observations, and risk ratings

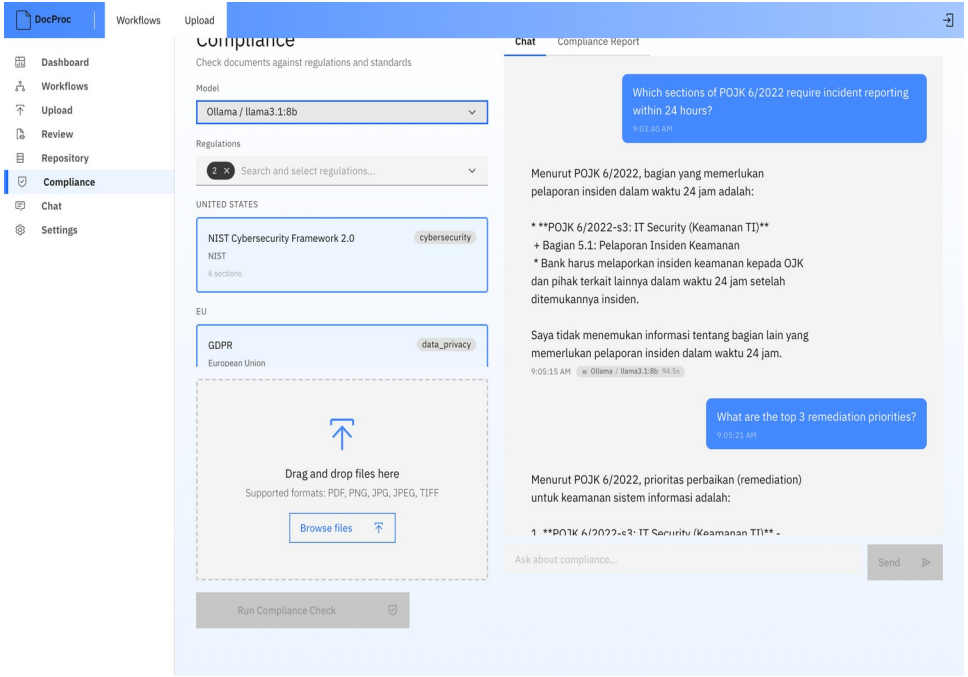


Compliance Chat

Ask follow-up questions in English or Bahasa Indonesia



Zero Vendor Lock-In



Ollama (On-Prem)
Sensitive docs stay local

Anthropic Claude
Deep regulatory analysis

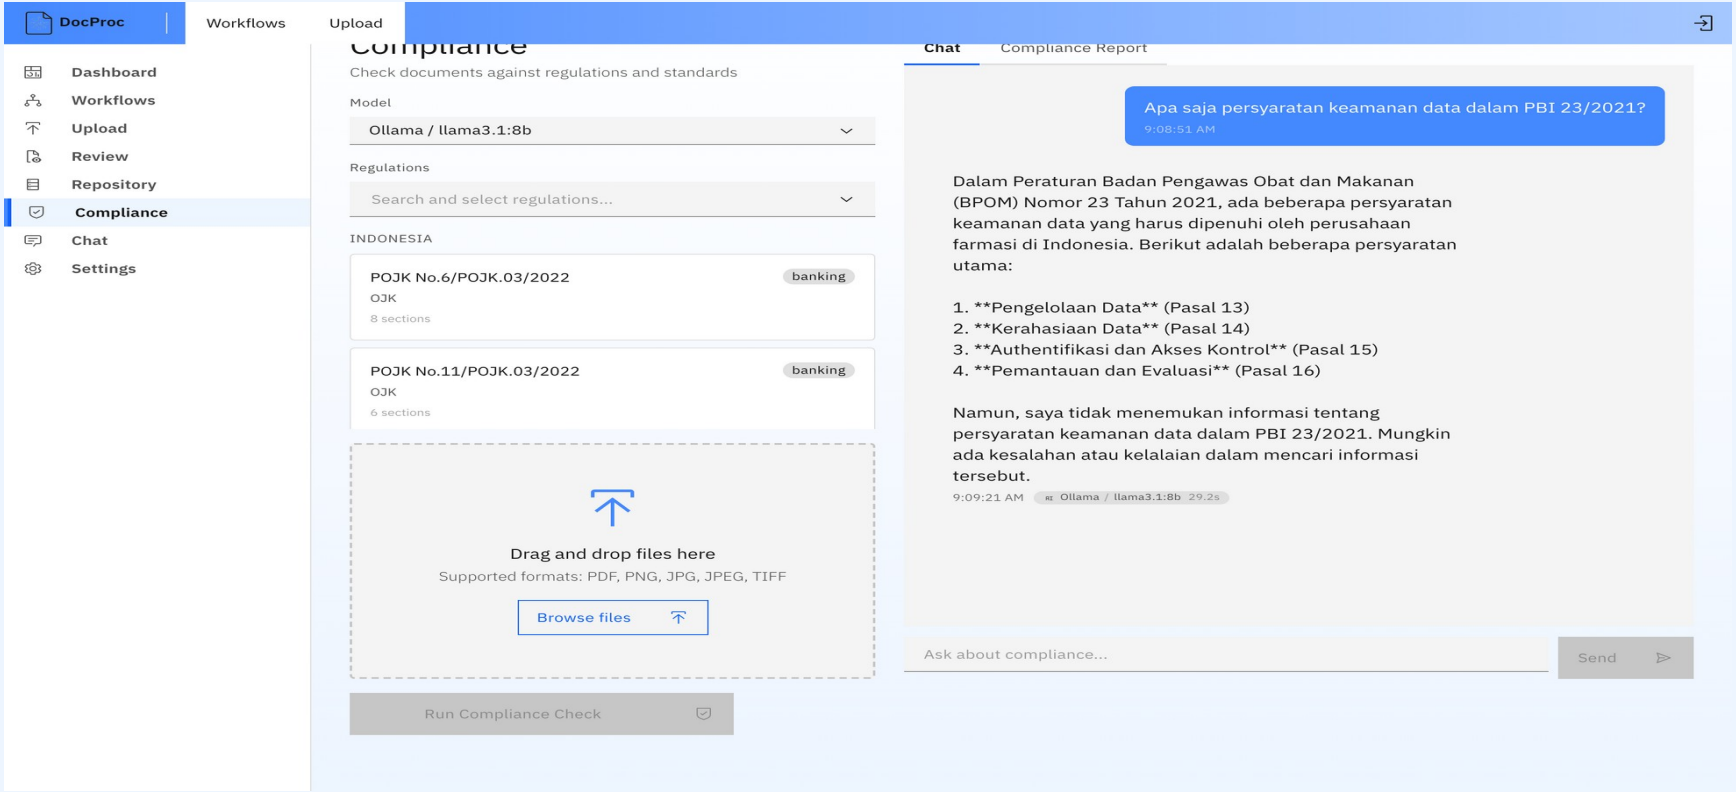
OpenAI GPT-4o
Cross-framework reasoning

Mistral
Cost-effective volume

Switch models at runtime — no restart required

Bilingual Compliance Chat

Full Bahasa Indonesia support for Indonesian banking compliance teams



Key Differentiators

Indonesian Regulations

POJK, PBI, OJK circulars built in — no manual cross-referencing of 100-page documents

Actionable Findings

Specific section references and risk levels, not generic compliance advice

Data Sovereignty

On-premises processing with Ollama — sensitive bank policies never leave your infrastructure

Cross-Regulation Mapping

Compare POJK with NIST, ISO 27001 — maps equivalent controls across frameworks

Audit-Ready

Every check logged: document, regulations, model, score — ready for regulatory examination

Compliance Democratization

Business users verify compliance without specialized legal training

Thank You

From manual compliance reviews to AI-driven analysis in under 30 seconds
